DEFIANCE LANTERN AND
STAMPING CORPORATION
ROCHESTER, NEW YORK, U. S. A.

1924

Introduction

We are pleased to call to your attention the various lines of Tubular Lamps and Lanterns shown in the following pages. We have been manufacturing these goods for 25 years and have one of the best equipped factories in the country for this work.

All our lanterns are made of heavy bright tinplate and the best tinned wire; they are wind-proof under all conditions, and are fitted with the best lifts, burners, globes and wicks.

Many of the leading jobbers throughout the country are handling the "Defiance" line and we will continue to furnish in the future, as in the past, the best line of Tubular Lamps and Lanterns that good material and competent labor can produce.

*Defiance Lantern & Stamping
Corporation*

ROCHESTER, N. Y., U. S. A.

January 1, 1924.

A Word About the Care of Lanterns

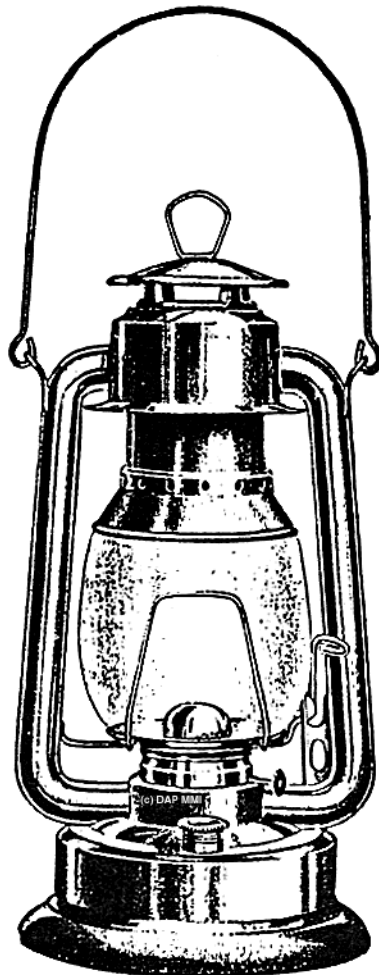

Our lanterns are wind-proof and will give satisfaction under all conditions provided a good grade of kerosene is used.

It is necessary to trim the wick frequently and not allow it to become charred because the lantern will not give as bright a light if the wick is not well trimmed. Do not allow the burner to become clogged from the charred part of the wick that may fall on the burner in trimming.

It is advisable to replace an old wick with a new one occasionally, particularly after the old one has been used for some time, because the impurities in the oil will choke or clog up the wick so that it becomes hard and will not properly draw oil to the flame.

To obtain the best light be sure that the globe is always clean. Wash it and dry thoroughly or use paper which will readily remove the film on the globe.

Defiance Lantern and Stamping Corporation

[PATENTED]

No. 2 "Triumph"—Cold Blast Lantern

No. 2 Locked-in tinned steel cold blast burner with
rising cone. "Short" Cold Blast globe. 1" wick.

No. 2 "Triumph" Cold Blast Lantern

Absolutely wind-proof.

Has best standing bail of any lantern made. *It always stands.*

Has inside lift of heavy metal which never fails to operate.

Made of heavy bright tin throughout and best grade of tinned wire.

Has very large oil fount and oil filler.

Gives a bright steady light which does not flicker in a strong wind owing to construction of patented Fluted Globe Plate.

The patented top is so constructed that the wind cannot blow through same to extinguish the lantern.

Burner is securely locked on air chamber.

Specifications

Height over all	14 $\frac{3}{4}$ inches
Fount capacity	27 hours
Takes white, ruby, blue or green "short" C. B. globe.	
Packed one-half dozen in case.....	2 $\frac{1}{4}$ cu. ft.
Gross weight of one-half dozen in wooden case..	24 lbs.
Gross weight of one-half dozen in fibre case...	20 lbs.
Measurement of each case.....	18 $\frac{1}{2}$ x 15 x 12

Defiance Lantern and Stamping Corporation

[PATENTED]

No. 200 "Triumph"—Cold Blast Lantern
Extra Large Fount

No. 2 Locked-in tinned steel cold blast burner with
rising cone. "Short" Cold Blast globe. 1" wick.

**No. 200 "Triumph"
Cold Blast Lantern**

(extra large fount)

Absolutely wind-proof.

This lantern is same as No. 2 Triumph except for the fount which is extra large. It holds enough oil to burn for forty-five hours.

Has best standing bail of any lantern made. *It always stands.*

Has inside life of heavy metal which is never out of order.

Made of heavy bright tin and best grade of tinned wire.

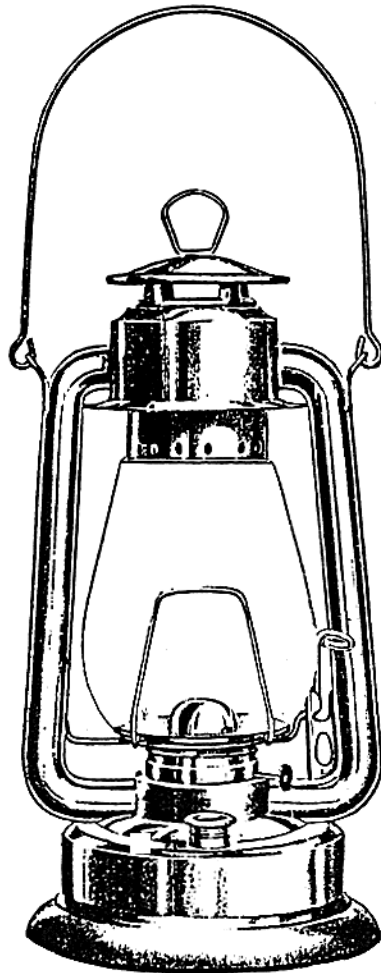

Gives a bright steady light which does not flicker in a strong wind owing to construction of top and patented Fluted Globe Plate.

Burner is securely locked on air chamber.

Specifications

Height over all.....15 inches
Fount capacity15 hours
Takes white, ruby, blue or green "short" C. B. globe.
Packed one-half dozen in case.....2¼ cu. ft.
Gross weight of one-half dozen in wooden case...25 lbs.
Gross weight of one-half dozen in fibre case...21 lbs.
Measurement of each case.....18½ x 15 x 12

Defiance Lantern and Stamping Corporation

[PATENTED]

No. 2 "Defiance"—Cold Blast Lantern

No. 2. Locked-in tinned steel cold blast burner with
rising cone. No. 2 Cold Blast globe. 1" wick.

No. 2 "Defiance" Cold Blast Lantern

Absolutely wind-proof.

Has our inside lift made of heavy metal securely soldered to tube.

Has best standing bail of any lantern. *It always stands.*

Made of bright heavy tin and best tinned wire.

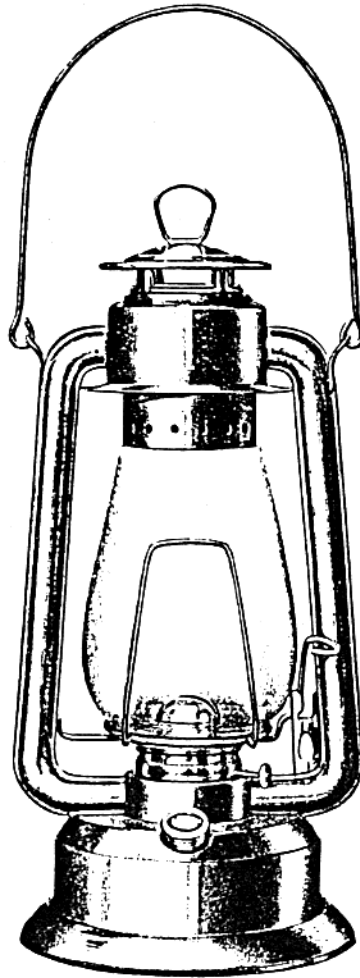

Oil fount is very large and has large oil filler.

Gives a bright steady light which does not flicker in a strong wind because of construction of our patented top and Fluted Globe Plate.

Gives a bright steady light which does not flicker in a strong wind because of the construction of our patented top and Fluted Globe Plate.

Specifications

Height over all.....15 inches
Fount capacity45 hours
Takes white, ruby, blue, or green No. 2 C. B. globe.
Packed one-half dozen in case.....2 $\frac{1}{4}$ cu. ft.
Gross weight of one-half dozen in wooden case..25 lbs.
Gross weight of one-half dozen in fibre case....21 lbs.
Measurement of each case.....18 $\frac{1}{2}$ x 15 x 12

Defiance Lantern and Stamping Corporation

[PATENTED]

No. 2 "Defiance"—Cold Blast Dash Lantern

No. 2 Locked-in tinned steel cold blast burner with rising cone. No. 2 Cold Blast globe, plain or B. E. 1" wick.

**No. 2 "Defiance"
Cold Blast Dash Lantern**

Enameled a shiny red.

Absolutely wind-proof.

Used on delivery wagons, etc., at night.

Also as a hand lantern or wall lantern.

Has large oil fount and large oil filler.

The dash back is made of bright tin and has a strong dash wire clip.

Has patented inside lift which will not get out of order.

Specifications

Height over all.....14 $\frac{3}{4}$ inches

Fount capacity27 hours

Takes No. 2 C. B. globe, plain or B. E.

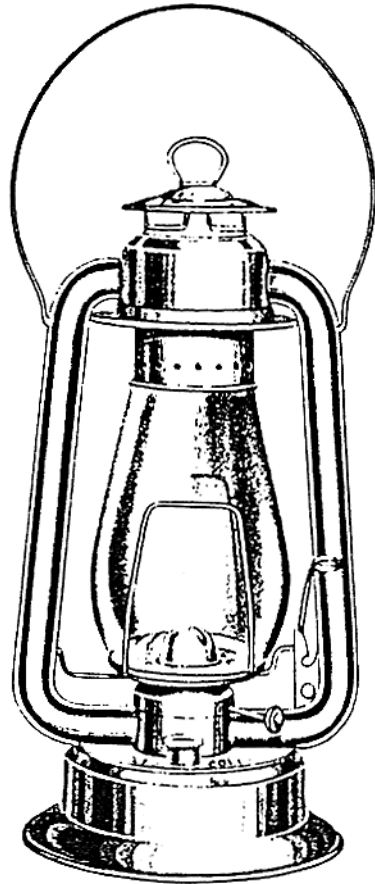

Packed one-half dozen in case.....4 $\frac{1}{2}$ cu. ft.

Gross weight of each wooden case of one-half doz. 30 lbs.

Gross weight of each fibre case of one-half doz. 24 lbs.

Measurement of each case.....23 $\frac{1}{2}$ x 16 $\frac{1}{2}$ x 14 $\frac{1}{2}$

Defiance Lantern and Stamping Corporation

[PATENTED]

No. 1 "Jewel"

Cold Blast Lantern

No. 1 C. B. burner

"Jewel" C. B. globe.

$\frac{5}{8}$ " wick.

**No. 1 "Jewel"
Cold Blast Lantern**

Absolutely wind-proof.

Made throughout like our No. 2 "Defiance" Cold Blast—only smaller.

Has our patented top and Fluted Globe Plate which prevents the flame from flickering in the strong wind.

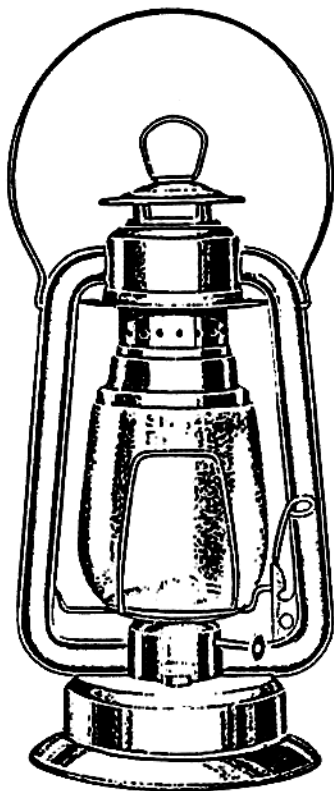

Made of heavy bright tin throughout and best grade of tinned wire.

Has large oil fount and oil filler.

Specifications

Height over all.....12½ inches
Fount capacity.....21 hours
Takes white, ruby, blue or green "Jewel" C. B. globe.
Packed one dozen in case.....2½ cu. ft.
Gross weight per dozen packed in wooden case..31 lbs.
Gross weight per dozen packed in fibre case...26 lbs.
Measurement of each case.....28½ x 14½ x 12½

Defiance Lantern and Stamping Corporation

[PATENTED]

"Small Rival"

Cold Blast Lantern

No. 1 C. B. burner

$\frac{5}{8}$ " wick.

"Small Rival" C. B. globe.

“Small Rival” Cold Blast Lantern

Absolutely wind-proof.

Is constructed the same as our No. 2 “Triumph”—
only smaller.

Made of heavy bright tin and best grade of tinned
wire.

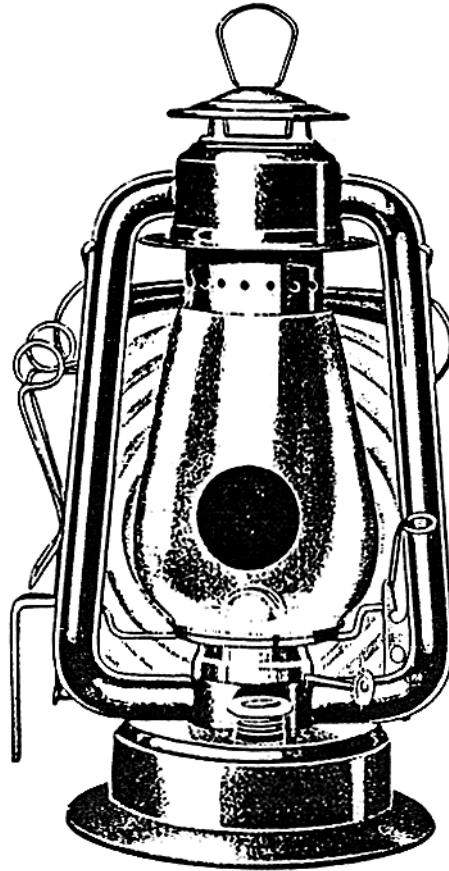

Has large oil fount and oil filler.
