

PIECED TIN WARE

In this section, we particularly invite your attention to our line of Oval Wash Boilers. No manufacturer, anywhere, has a larger or better line to offer. The quality of all our Pieced Tin Ware lines has been greatly improved since our last catalogue was issued. Close inspection and careful packing is the same here as in our Enameled Wares.

*DELUGE SPRAYERS

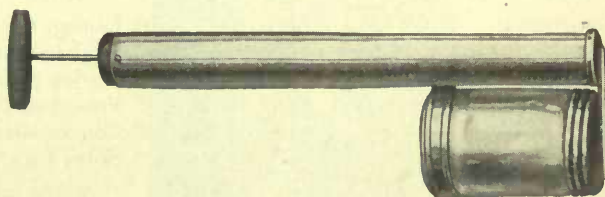

No.....	01	1
Size of reservoir, inches.....	2 $\frac{7}{8}$ x3 $\frac{3}{4}$	4 $\frac{1}{8}$ x4 $\frac{1}{8}$
Size of Pump, inches.....	1 $\frac{3}{4}$ x11 $\frac{1}{2}$	1 $\frac{3}{4}$ x15
Per dozen.....	\$3.30	4.25

This sprayer is the ideal one for plants and cattle, being unbreakable and very easy to work. It throws a fine spray over a wide area, doing the work quickly and economically. There is no mechanism to get out of order. As long as the washer in the pump is kept soft with oil the Deluge Sprayer works perfectly.

SHEET IRON AND STEEL WARE

The quality of **SMP SHEET IRON WARE** we believe is best shown by the large quantity of this ware that we turn out. We invite particular attention to our line of Gem and Savoy Roasters, as more complete and better value than shown in previous catalogues.

S M P HOT GALVANIZED WARE

A little Talk on Hot Galvanizing;

Zinc, or spelter as it is commercially called, is the coating used to prevent rusting on iron and steel articles. *As long as the spelter coating is complete no rusting results.*

In making Sheet Metal Products such as Wash Tubs, Wash Boilers, Garbage Cans, etc., which have bottom seams and side seams, the steel sheets become greatly stretched and distorted at these seams.

When the Spelter coating is applied *before* the sheets are formed, it also becomes stretched and distorted and rusting starts at these points, soon destroying the article. No amount of aluminum bronze or red paint can repair the defect.

Consider on the other hand an article on which the spelter coating is applied *after* the sheets are formed and *after all* mechanical work is completed—where the article after pickling is completely immersed in pure molten spelter so that all that can hang on stays on.

This is Hot Galvanizing and is the process used by

SMP on all their

Hot Galvanized Ware.

“Mr. Merchant”

SMP HOT GALVANIZED WARE should be a line of big profit for you. You and your clerks can make it so if you remember what we say on this page and pass it on to your trade.

COAL HODS AND STOVE BOARDS

OUR yearly sales in this section of the catalogue are large because of the general excellence of each article and size shown.

We have specialized for years, not on the stove itself, but on the articles that are used around the stove. For this reason the SMP line is the logical one to push.

PARQUET PATTERN STOVE BOARDS

Heavy Paper Linings—Beaded Edges—Assorted Colors

Size, inches.....	24x24	26x26	28x28	30x30
Per dozen.....	\$13.00	15.00	16.50	19.00

Parquet Pattern Stove Boards are lithographed in two different color combinations:

1st.—Light buff, brown, maroon and yellow.

2nd.—Light green, brown and dark red.

These two color combinations will be found to harmonize well with the majority of carpet patterns in common use in Canada.

PARQUET PATTERN STOVE BOARDS

1/2 inch Wood Linings—Assorted Colors

Size, inches.....	24x24	26x26	28x28
Per dozen.....	\$18.50	21.00	23.50
Size, inches.....	30x30	33x33	36x36
Per dozen.....	\$25.50	32.00	37.00
Size, inches.....	18x28	24x32	26x34
Per dozen.....	\$19.00	25.00	26.50
Size, inches.....		26x38	28x44
Per dozen.....		\$28.50	40.00

These boards are the best product of our Macdonald plant and are lithographed on best cold rolled steel sheets. The wood linings are built up of thin kiln dried boards, nailed crosswise, and cannot warp under any service conditions. The decorated sheets completely cover the boards without using nails, leaving no part of the wood lining exposed, and no nails to catch in the carpet.

STANDARD STOVE PIPE

Nestable

Diameter, inches.....	5	6	7
Bundle lots, lengths.....	25	25	25
Per 100 lengths.....	\$12.73	12.73	13.64

The above cut explains why we sell Standard Stove Pipe in such large quantities. The package is only 18 inches long, yet, when the pipe it contains is set up, it will extend to about 38 feet.

SMP STANDARD STOVE PIPES

Go together without the aid of tools or rivets.

Can be formed up rapidly and easily.

Are made from Special Canada Steel Plates, coated, to prevent rusting.

Are made with great care, to ensure an even and easy fit.

*“END LOCK” STOVE PIPE

Diameter, inches.....	6	7
Bundle lots, lengths.....	25	25
Per 100 lengths.....	\$12.73	13.64

This pipe is designed for the trade who require a Stove Pipe to be nest-able and for the customer who wants a Stove Pipe which is easily put together. The Stove Pipes are cut, notched, folded, rolled, beaded and crimped. To set up a pipe simply bend the tongues down on the inside of the pipe with the fingers or a pair of pliers. This makes a secure lock at either end.

“END LOCK” is the easiest pipe on the market to put together, and the strongest when set up.

NICKEL PLATED WARE

NO LINE in this catalogue receives more careful treatment than **SMP** Copper and Nickel Plated Ware. Extreme care is taken in buying the raw material so that the best suited sheets are used in the different parts of the article. Right through the Works, the same care is taken to have each piece turned out in a way to please the careful buyer. Better Nickel Plated Ware is not offered to the trade and our methods of packing insure good delivery.

SMP OILERS AND EMBOSSSED WARE

WE show here only Oilers that we make and are generally sold in the Canadian hardware store. A feature of **SMP OILERS** is the uniform spout. All **SMP** Mowing Machine Oilers and Engineers' Drip Oilers take the same spout screw. The advantage of this as well as the general excellence of this line of Oilers will be appreciated by the trade.

We show in Embossed Ware only those articles whose sale is large enough to justify their existence in this catalogue.

MILK CANS

It is impossible in this general catalogue to do justice to this important line. If you are interested, write our nearest branch for a copy of our "Milk Can" Catalogue.

Special attention is given to Retinning and Soldering on all our Milk Cans, which makes them superior to all other Cans.

"Milk Cans" are a line above all others where the best is the cheapest. Taking into consideration the quality of **SMP** Milk Cans our prices are always competitive.
